

PS1 Plantation Shutters-Louvres

Create a relaxed yet sophisticated mood in any room, elegant tones, sleek white to the warmth of natural western red cedar. Shutters have a classic style and unmatched functional benefits. Plantation shutters are custom made to suit most openings including special shapes and are available in timber or aluminium.

The advantages over other window treatments:

- Gives privacy without closing out light or view
- Protection from heat and sun
- Heat insulation during winter
- Adjustable light and ventilation
- Custom designs and colours
- Unique blade sizes and shapes

• Customcraft Shutters:

Constructed from a highly durable composite wood with a tough polypropylene coating, which resists scratching, denting, fading and warping and is ideal for off square windows because these shutters have their own frame mounting options. Standard or concealed rotation bar. Blade sizes 64, 89 and 114mm elliptical blade with 3 standard colours.

• Hardwood Shutters:

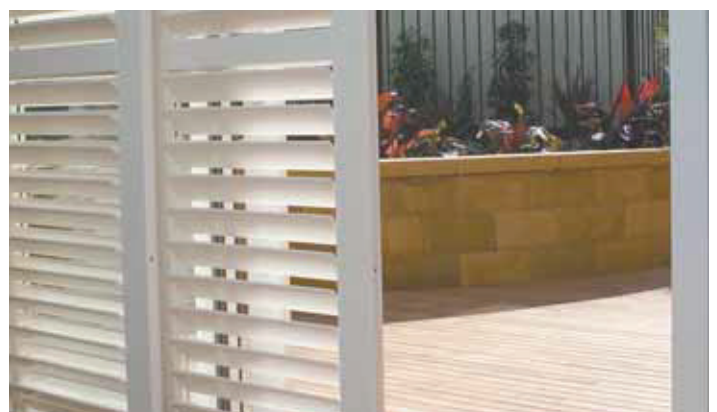

Our specially selected hardwood is able to resist marking and denting making it perfect for high use areas. Blade sizes: elliptical – 89 or 114 mm with the option of stained or painted finish. Its thin profile gives an excellent unobstructed view.

• Western Red Cedar Shutters:

A timber with a deep rich colour, natural beauty and lightweight durability. Ideal for wider panel installations and can be used both on the internal and external. Blade sizes flat – 60 or 84 mm, elliptical 64, 89,114 mm. The timber's natural beauty can be enhanced by a lacquer, oil or a painted finish.

• Aluminium Louvres:

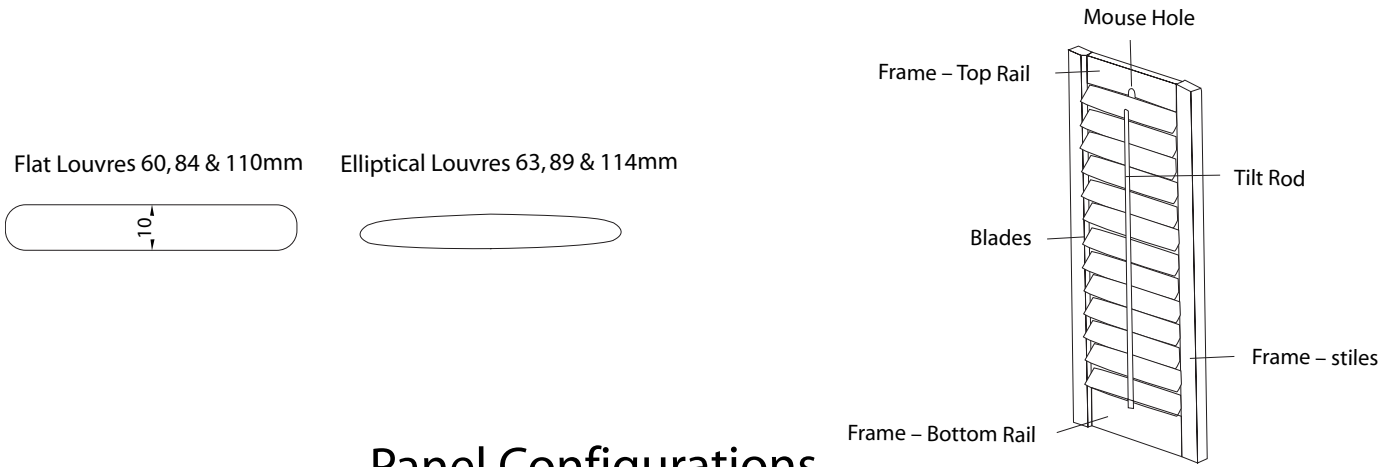

Perfect for external and high moisture applications, these shutters are made from extruded high tensile aluminium and are available in a powdercoated or anodized finish. Aluminium is a very durable material and is not susceptible to movement or warping. Available in an 89 mm elliptical blade only.
