

R01

Removable Security Bars allow you to enjoy your home and fresh air, day or night, safe and secure.

Why should I choose the R01 system for my home or business?

- **Unobtrusive**

The R01 system fits on the inside of your windows allowing quick removal for emergency exit. It is the system that locks them out but doesn't keep you locked in.

- **Strength and Security**

R01 steel bars are manufactured from BHP steel in a wide range of colours. The R01 tamper resistant exclusive locking system makes bars easy for you to remove for window cleaning or a quick exit. The R01 system has a concealed fixing method to attach its aluminium top and bottom track. The bottom section houses the locking system. The top track is to receive the steel bars.

- **Applications**

Schools, Day Care Centres, Council Depot's, TAFE Colleges, Hospitals, Doctors' Surgeries, Retail Showrooms, Universities, Chemists, Display Windows, Factories, Home Units etc. NB. General recommendation is for a height not exceeding 1600mm for optimum security

- **Warranty**

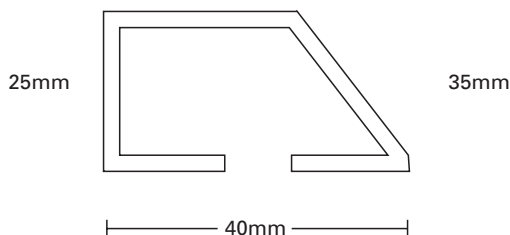

A 12 month warranty against defective materials and workmanship applies

- **Fire Safety and Security in One Product**

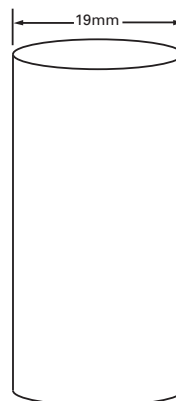

Locks

The lock is high grade. The Lock Focus RPT design cylinder has no spring loaded parts that can wear and has excellent protection against tampering. Multiple units can be keyed alike.

Bottom and Top Channel

R01 Steel Bars

19mm round tube with optional 12mm square solid infill for extra strength if required.
